Thin Brick Technical Guide

Inspiring Architectural Elegance...

Lakewood Brick and Summit Brick
Thank you for choosing Summit Brick Company to help enhance your project. This Technical Guide is meant to be a guide only as building codes vary by region. Please check with local building codes for proper requirements. Also, observe all safety precautions for construction when installing thin brick.

### Packaging and Weights

<table>
<thead>
<tr>
<th>Thin Brick</th>
<th>Thin Brick Corners</th>
</tr>
</thead>
<tbody>
<tr>
<td>Per Box Information</td>

</tr>
<tr>
<td>50 pieces</td>
<td>25 pieces</td>
</tr>
<tr>
<td>7 square feet</td>
<td>5 linear feet</td>
</tr>
<tr>
<td>34 pounds</td>
<td>24 pounds</td>
</tr>
<tr>
<td>50 boxes per pallet</td>
<td>50 boxes per pallet</td>
</tr>
<tr>
<td>1700 pounds per pallet</td>
<td>1200 pounds per pallet</td>
</tr>
</tbody>
</table>

**Pallets Weigh 15 Pounds Each**

### Estimation of Product Coverage

**Thin Brick Calculation**
1. Length X height = total square feet
2. Window/door length X height = total opening square feet
3. Total square feet - total opening square feet = total square feet needed
4. Total square feet X 7 = thin brick needed for project

**Thin Brick Corner Calculation**
1. Measure height of all areas that outside corners are needed
2. Measure length and height of windows and doors that will use corners
3. Add all measurements up to get total linear feet of corners needed
4. Total Linear Feet X 5 = thin brick corners needed for project

### Cleaning and Installation Information

Thin brick should be kept clean during the installation process and any mortar on the brick should be removed gently with a damp sponge or soft bristle brush before it is allowed to set. We recommend following BIA technical note #20 for bucket and brush cleaning methods and BIA technical note #28C for installation. These technical notes can be found on www.bia.org and can be easily downloaded. All acids should be avoided and if cleaning or installation assistance is needed, please contact your sales representative.
